

MENZIES CREEK PRIMARY SCHOOL

PUBLICITY PERMISSION

2013.

Menzies Creek Primary School fosters students' abilities in Information and Communication Technology (ICT) through the use of a range of multimedia resources.

Today's multi-media learning environment ranges from images in individual assignments, digital portfolios and videos to photos of student presentations, school newsletters, local press class blogs and wikis and our school's web site.

Menzies Creek Primary School celebrates and publishes student achievements in these formats: school newsletters, newspapers, school's website, class blogs and wikis and the wider school community.

Please complete the form below and return. This form will cover each student for the current year.

If you have any queries or concerns, please see me.

Kind regards,

Tanya Cooke
Principal
